- Surveys are voluntary, anonymous, and do not include student names
- Students may skip any question or stop at any time. If the student stops, their responses won't be used.
- Survey responses are kept confidential at the Center for Prevention Services and will not affect grades or school standing.
- Once submitted, there will be no way to remove/delete your child's survey data, as the data are not identifiable.
- Students may participate in the program even if they do not participate in the evaluation

Some questions may be personal in nature. If a student becomes uncomfortable, they may stop and check in with a designated staff member.
